ESMALTEX epoxy resin
-For decoration of pieces-

R&D, testing and quality control laboratories for both raw materials and finished manufactured products.

Unique on the market Free of BISPHEENOL-A

ESMALTEX is a enamel that results in a ceramic or glassy appearance.

EPOXY RESINS, colourless for similar water-based products.

It is completely free of BISPHEENOL-A and complies with the strictest currently applicable regulations.

The classification of this product has been carried out in accordance with Regulation No. 1272/2008 (CLP). Be wary of any similar product if the packaging, labelling and/or safety data sheets do not comply with these regulations.
